Sri Sri Ravishankar Vidya Mandir Trust is a Charitable trust and has approached MRPL for CSR funds to work on the infrastructure requirement of our Chikamagaluru school where we are taking-up construction of the new building. As part of the construction, we are taking-up toilets and drinking water facilities for the children.

What the project intends to do?

The project aims to mobilize and educate rural communities in the selected villages in Chikamagaluru district. The main focus of the project is capacity building training for communities on holistic education.

Project Objectives/Deliverables

- ▪ Engaging Rural Students for behavioural change
    - ✔ Capacity building by imparting good education
    - ✔ Menstrual hygiene and reproductive health training for girls
    - ✔ Impart skill development and occasional training to rural Children
    - ✔ Create job opportunities locally
- ▪ Creating infrastructure for the school
- ▪ To impart SSRVM Trust's concept of "deepening the roots and broadening the vision"

Targeted beneficiaries

Project impacts 31 villages (ANNEXURE 2) around Marle, Chikamagalur with a population of nearly 50,000. Currently, around 53 Female and 102 Male students attend SSRVM Marle from these Villages (ANNEXURE 3).

With the proposed building expansion plan and drinking water/sanitization improvements, we are expecting to increase the overall student count and Female/Male ratio. Emphasis is to educate rural girl children by bringing gender equality and improve education potential by facilitating good study material and tools.

The project also promotes Enhanced health and livelihood opportunities for rural communities through rural education and volunteer-based sustained activities like 5H program:

H – Health

H – Harmony in Diversity

H – Hygiene

H – Homes for homeless

H – Human values

To facilitate the infrastructure of the school to facilitate more children so that more villages get the benefit.
To provide good drinking water facility and Toilets in the school
To provide a good computer lab and after school tutorials
To provide a library for school
To provide good infrastructure and classrooms for children to create a good learning environment
